BinaxNOW

★★★★★

\$14

Product details BinaxNOW COVID-19 Antigen Self Test (2 Tests): A simple solution for COVID-19 infection detection, with rapid results in the convenience of your home. This test has received FDA Emergency Use Authorization for self-testing without the need to ship samples to a lab or for a prescription from your healthcare provider. This 15-minute test can be completed anytime, anywhere. This test does NOT meet the CDC testing requirements to enter the U.S. when returning from a trip abroad.

About Our Company

About Us

Pharma Street Pharmacy is a chain retail pharmacy consisting of 10 branches distributed all over Amman, the Capital of Jordan. The company's mission is to provide its customers with medicines, cosmetics, medical devices, and everything related to the body care at any life stage whether it is from local or international vendors. The company's vision is to be one of the best pharmacies in Jordan by providing high quality products and services in competitive prices and to continue spreading by opening more branches. Our branches are distributed very well and occupy vital places in Amman which guarantees the easy accessibility for all customers. Regarding the dispensing of the drugs we provide an excellent service by dealing with customers in a professional kind way and by giving the time and the consultation needed for every customer. To improve this service we have incorporated an isolated consultation room in some of our branches to give the maximum benefit and privacy to our customers. The prices of babies and mothers' needs at our pharmacies are competitive, and we have beauty advisors who provide customers.
